

# Heat Transfer Press

## HT-400: Standard Press

- 15"x15" flat even-heat area.
- Sets the standard in the manual heat press industry because of its ruggedness, durability, and years of trouble-free performance.
- Use to transfer onto T-shirts, sweatshirts, mouse pads, license plates, magnetic material, clipboards, dry erase boards, calendars, bags, pennants, and much more!
- Great for metal sublimation to make badges, plaque plates, magnetic note holders, signs, name plates, and trophy plates.
- New handle design provides 20% more pressure.
- Floating lower platen gives perfect alignment on all items up to 1" thick.
- Features include auto-reset digital timer (up to 999 seconds), full range pressure control, thermometer, thermostat, and heat indicating light.
- ETL certified and lifetime warranty on heating element.
